adidas PADEL

Power. Precision. Every Point. | Make every shot count.

PRO CATALOGUE

A complete line of rackets built for power hitters, control specialists and all-court competitors.
Engineered for players who demand control, spin and explosive power.

POWER OF NATURE | IMPOSSIBLE IS NOTHING

METALBONE

Metalbone - where Adidas engineering, raw power and customizable tech fuse into the ultimate padel weapon, built only for players who dare to play like the pros.

THE METALBONE REVOLUTION

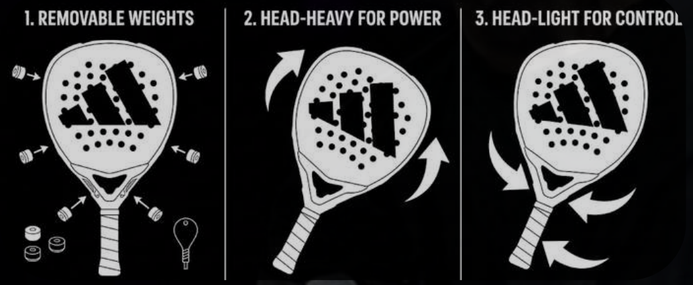

Engineered for power. Built for attack. Designed for winners.

Total customization in your hands.

- **Weight & Balance System**

Adjustable screws let you change weight and balance for more power or more control.

Want more explosive power? Add weight to the head.

Need sharper control and faster reactions? Shift it lower.

One racket. Infinite setups. Your game, your rules.

- **EPG (Extra Power Grip)**
- **Spin Blade Decal (Enhanced spin control)**

Metalbone doesn't just adapt to your style - it evolves with you.

INTELLIGENT BALANCE

The Intelligent Balance System (IBS) is an exclusive innovation that puts the racket's center of gravity in your control.

By utilizing two lateral rails and movable weights, players can shift the mass continuously to match their tactical needs in real-time.

UNPARALLELED VERSATILITY

Two 9-gram weights allow you to alter the total mass of the racket from 360g to 375g+, while significantly shifting the balance point.

This 18g swing is the difference between a lightning-fast defensive tool and a heavy-duty attacking weapon.

LOOSEN

Insert the Adidas Allen key into the weight screw and loosen until it slides freely along the rail.

SHIFT

Slide the 9g weights towards the **Head** for power or the **Center** for control.

LOCK

Once your ideal balance is found, tighten the screw to fix the weight in place for total stability.

ATTACK MODE

Shift weights to the **TOP**.

- Increased Inertia for Smashes
- Head-Heavy Distribution
- Explosive Ball Output

DEFENSE MODE

Shift weights to the **CENTER**.

- Superior Maneuverability
- Low-Balance Precision
- Faster Reaction Speeds
